ABOUT US

Forex trading, also known as foreign exchange or FX trading, is the process of buying and selling currencies on the foreign exchange market with the goal of making a profit. It involves trading currency pairs, where one currency is exchanged for another. For example, in the EUR/USD currency pair, you are trading euros against U.S. dollars.

Currency Pairs: In forex, you trade pairs like USD/EUR, USD/JPY, or GBP/USD. The first currency listed is the "base currency," and the second is the "quote currency." The price of the pair tells you how much of the quote currency is needed to buy one unit of the base currency.
